

It is preposterous that you are poised to approve the expansion of monopolies in this country. The airwaves belong to the people, not to the corporations. The airwaves are intricately aligned with democracy and people's right to know, information is power, education makes us wiser, etc.

And yet, you Mr. Powell have vociferously ignored, in quite some arrogant way, the will of the people.

How many times did you all meet with the Industry representatives? And then tell me how many times you all met with Consumer Groups, the people, the citizen, the consumer.

And therein lies your conflict, your answer yes, but surely your conflict. Who do you represent? Us the people or the businesses?

Vote NO.

Mark
